Florida US Congress D-18 Survey  
Data collected September 28 between 3:00-8:30pm**

- **Executive Summary**
- **Methodology**
- **Survey Instrument**
- **Frequencies and Cross tabulations**

**Executive Summary**

- ✓ In the Presidential Ballot Test, President Obama holds a 7 point lead over Governor Romney in the 18<sup>th</sup> Congressional District (52% to 45%), 3% were undecided.
  - Martin County is Romney's strongest County with 53% to 44% for Obama (+9)
  - Palm Beach County is Obama's strongest County with 64% to 35% for Romney (+29)
  - St. Lucie County is the toss up county with a virtual tie (48% for Obama to 47% Romney)
  - Younger voters 18-39 were more likely to support Romney 60% to 41% for Obama
  - Voters 50-59 years old significantly supported Obama 58% to 38% (+20)
  - Women were significantly more likely to support President Obama +22 points (59% to 37%)
  - Men were significantly more likely to support Romney 54% to 44% for Obama (+10)
  - Democrats and Republicans support their party candidate about 80% of the time with both parties giving the opposing candidate 18% of their vote
  - Independents support Romney over Obama 50% to 46%
- ✓ If the Election for U.S. Congress were held today in Florida's 18 district, Patrick Murphy would win with 49% over Allen West 45% (within the margin of error) with 6% of voters undecided.
  - Allen West has his base support in Martin County +9 (52% to 43%)

- Patrick Murphy has his support in Palm Beach County +21 (58% to 37%)
- St. Lucie County is a toss-up with West holding a 1 point lead (47% to 46%)
- Younger voters between the ages of 18-39 significantly favor West over Murphy +25 points (60% to 35%)
- Female voters significantly support Murphy over West +21 (57% to 36%)
- Male voters significantly favor West over Murphy +14 (55% to 41%)
- Democrats and Republicans support their party candidate 75% of the time and both candidates receive about 19% of the opposing party's vote.
- Independent voters favor West +6 over Murphy (49% to 43%)
- Voters who said the Deficit was the number one issue were four times as likely to vote for West (78% to 17%)
- Voters who thought Healthcare was the most important issue were very likely to vote for Murphy (80% to 12%)
- Voters who thought jobs were the most important issue split their votes between Murphy (48%) and West (46%)
- ✓ President Obama has a 51% favorable rating and a 46% unfavorable rating (+5)
  - His favorable ratings fall below his unfavorable rating in Martin County (-9) and St. Lucie County (-2).
  - President Obama has a significantly higher favorable rating in Palm Beach County (+24)
  - Among younger voters (18-39) Obama has a -21 unfavorable to favorable rating (60% to 39%)
  - Gender splits on the Presidents favorable ratings with women holding a 59% favorable opinion versus males who hold a 42% favorable opinion
  - Males also hold a 56% unfavorable opinion while females hold only a 38% unfavorable opinion
  - Democrats and Republicans maintain a basic 80-20 split about President Obamas opinion, while Independents have a -4 unfavorable opinion of President Obama (50%-46%)

- ✓ Governor Mitt Romney has a 46% favorable opinion and a 51% unfavorable opinion while 3% are undecided.
  - Romney's support is located in Martin County +14 (56% to 42%), while his weakest is in Palm Beach County (-25 points) 61% unfavorable to 36% favorable.
  - St. Lucie County is an area that Romney has some support with 47% favorable and 49% unfavorable
  - Voters 30-39 years old have a significant favorable opinion of Romney with 64% to 36% (+28)
  - There is no significant gender difference in opinion of Romney but the trend of females holding an unfavorable opinion (-19) and males' holding a favorable opinion (+ 10) continues.
  - Party affiliation continues to break based on Candidates party at nearly 80-20. Independent voters had a 50% favorable to 48% unfavorable opinion.
- ✓ Congressman Allen West holds a 42% favorable opinion and a 51% unfavorable opinion in the district with 4% undecided
  - Palm Beach County significantly has a lower impression of West with only a 35% favorable and a 62% unfavorable impression (-27)
  - Younger voters continue to be attracted to the Republican candidates with voters 18-39 holding about a 32% unfavorable opinion and a 55% favorable opinion.
  - Females have a -21 favorable to unfavorable opinion (36% to 57%) while males hold a slim +5 favorable impression of West (49%-44%)
  - Party continues to split based on candidacy with a -55 amongst Democrats and a +51 amongst Republicans. Independents have a slight unfavorable opinion of West (44% to 49%)
- ✓ Patrick Murphy has a positive Favorable (45%) to unfavorable (37%) ratio with 19% undecided/never heard of him.
  - Palm Beach County hold a significantly lower unfavorable opinion with only 28%
  - Younger voters between ages 18-39 continue to hold an unfavorable opinion of the Democrat candidates with only a 24% favorable opinion and a 49% unfavorable opinion
  - Females are a strong group of support +16 while males are evenly split (41% to 41%)
  - Republican and Democrats mirror their opinions with +40 favorable opinions amongst Democrats and a -37 amongst Republicans.

- Independents have a +10 favorable opinion (47% to 37%).
- ✓ The most important issue is Jobs (30%) followed by the Deficit (26%) and Healthcare (25%)
  - Female voters said healthcare was more important than the Deficit (29% to 17%)
  - Males said the deficit was the most important issue (35%)
  - Democrats thought Healthcare was most important at 36% followed by Jobs (28%) and a statistical tie for third between The Deficit (13%) and Cost of Education (11%)
  - Independents and Republicans said the deficit was the most important issue (36% and 35% respectively)

### **Methodology (Caller ID)**

All respondents interviewed in this study were part of a fully representative sample of registered voters in the state using a probability sampling method including both landline (n=278) and mobile devices (n=130) for a total sample of N=408 registered “likely” voters. The Margin of Error for the sample is +/- 4.8% with a confidence level of 95%.

The survey was administered using an Automated Telephone Interviewing (ATI) system. The ATI system allows data to be entered directly into a computerized database through the numbers on interviewee’s phone, providing a highly reliable system of data collection.

A random sample of registered voters statewide was purchased from Aristotle Voter Lists, a leading supplier of voter lists to the survey research industry.

A screening question was asked to all participants regarding how likely there were to vote in the November 6, 2012 General Election. Only those who answered “very likely” were included into the sample.

The survey was conducted by Kimball Political Consulting on September 28, 2012 between 3:00 and 8:30.

There was a response rate of 21% for this survey.

### **Data Analysis**

The results presented in this report include univariate and bivariate analysis of the data. Frequency distributions for each item included on the questionnaire are shown in the tables. In all cases, cross-tabulation results are also shown. This type of bivariate analysis examines differences between sub-groups of the overall population.

The purpose of these statistical tests is to determine whether or not the observed difference between sub-groups in the sample is due to sampling error or whether it is due to a real difference in the population. When the results are statistically significant, it strongly suggests that the observed difference between sub-groups found in the sample is due to a real difference in the population, and not due to sampling error.

Survey data was not weighted based on political, gender and geographical demographics of the district because the sample itself properly represented the parameters of Florida's 18 congressional district using voter registration numbers from the Florida Secretary of State's office.
